Adoption and Post-Adoption Fund

Why a denominational Adoption & Post-Adoption Fund?

The Need

Millions of orphans and vulnerable children worldwide are trapped in a cycle of hopelessness, often without anyone to love, protect and care for them.

The Barriers

Adoption costs to complete a domestic infant or international adoption seem financially impossible to many Christian families. Adoptive families may face unique challenges while raising their children, and valuable counseling and therapies to support healing may be out of financial reach.

Discipleship

Adoption is evangelistic at its core, bringing the mission field home where children are loved, cared for, and disciplined to know Jesus. By reducing the financial barriers in adoption, we are helping orphans of all ages and vulnerable infants, for whom birth parents choose adoption, to find belonging in Christ-centered families who are equipped and supported.
